

What is VetSource?

VetSource is BDVS's online pharmacy partner. VetSource works with our distributors to bring you the same high quality products that you can get in the hospital...but delivered directly to your home! VetSource uses only USA approved medications and packaging unlike some other online pharmacies, so you don't have to worry about which country your meds came from, or how they got here. VetSource also works directly with BDVS, making sure that all medications that you order are approved specifically for your pet, and are safe and appropriate given your pet's specific medical needs.

VetSource is convenient -- delivery directly to your home.

VetSource helps you remember to give your monthly doses with their Autoship program.

VetSource is competitively priced with other online pharmacies.

How do I place an order?

Visit our website, www.bdvsmt.com, and click on the "Online Pharmacy" tab on the upper right (it may be under the three dots if your browser window is too small to display all tabs). Click on the "Click Here" in the blue banner at the top of the screen. You will be directed to our Vetsource pharmacy page.

Alternatively, you can go directly to our Vetsource site at <http://blackdogveterinaryservices2.vetsourceweb.com/site/view/site/view/HomeDelivery.pml?retUrl=https://www.bdvsmt.com>

Click on the Login / Register button on the top right. Fill out the information to create your account. Set up all account info and then start shopping!

If you request a medication that requires a prescription, a request will be sent to the clinic for approval. Once approved, your order will be processed and delivered directly to your mailbox!

For many prescriptions, you can sign up for AutoShip, which will send you a specified amount of medication at predetermined intervals – no more remembering to order!
